Refined Light, Subtly Woven

The Linum Collection is rooted in refinement, craftsmanship, and contemporary design, with Belgian linen at its heart. A natural, timeless material, reimagined through modern techniques to create lighting with a precise, architectural presence.

More than just light, Linum is about atmosphere. Each piece casts a soft, warm glow that brings a space to life without overpowering it. The collection balances function and beauty, where clean forms, tactile materials, and subtle light come together in calm, timeless elegance.
Linum blends tradition and innovation, creating lighting that not only illuminates a space, but makes it feel warmer, more human, and quietly harmonious.

The Collection

Linum Aura
A radiant floor lamp inspired by the gentle glow that surrounds and elevates a space.

Linum Solis
A sculptural wall luminaire drawing inspiration from the warmth and purity of sunlight.

Linum Vela
A refined pendant spotlight, wrapped in linen like a delicate veil of light.

Linum Sera
A statement pendant lamp inspired by the tranquil atmosphere of dusk and evening light.

A Collaborative Vision
Design by Tycho Maes & Maxim Lannaux

The Linum Collection is the result of a shared vision between two young architects united by a passion for simplicity, craftsmanship, and purity of form. Rooted in a deep appreciation for honest materials and timeless design, their collaboration explores the intersection of architecture, light, and atmosphere. Through a common pursuit of refinement, they create objects that transcend functionality and become an integral part of the spaces they inhabit.
Together, they believe that the most enduring designs emerge from collective mastery — where thoughtful details, material authenticity, and architectural clarity come together in perfect harmony.
